Linux Environments

CAREER OBJECTIVE

Hard-working college graduate with an ongoing Master of Science (M.S.) in Computer Science, with 8+ years of work experience. Aiming to leverage the academic experience and proven knowledge of systems configuration, web design, and programming to successfully fill your company's Software Engineer Intern role. Frequently praised as quality-oriented by my peers, I can be relied upon to help your company achieve its goals.

EXPERIENCE

JUNIOR SOFTWARE ENGINEER
Xebecware Software Solution, Dhaka, Dhaka / Aug 2018 - Jul 2021
- Modified existing software to correct errors, adapt to new hardware, or upgrade interfaces.
- Analyzed user needs and software requirements to determine the feasibility of design within time and cost constraints.
- Analyzed information to determine, recommend and plan the installation of the new system and modification of the existing system.
- Utilized scientific analysis and mathematical models to predict and measure outcomes and consequences of designs.
- Wrote well-designed, testable code.

WEB DEVELOPER
Bangla52 Newspaper, Dhaka, Dhaka / Feb 2016 - Jun 2018
- Created clean, well-documented custom code and updates.
- Enforced website standards for visual and design integrity.
- Completed programming projects that complied with existing coding standards and design styles.
- Leveraged mastery of HTML, CSS, and JavaScript to build top-quality code for diverse projects.
- Developed custom websites to meet individual client needs.
- Applied skills in network diagnostics and troubleshooting to resolve issues promptly.

Projects
- **Smart Doctor** - Created the whole system using Python, Django, and PostgreSQL
- **Cyber Bullying Detection using Twitter Data** - Build and trained model using python to run a sentimental analysis to detect Cyber Bullying.
